Professional experience:

PathPresenter

Jan-2021 -Current

Location: Montsville NJ

Project:

PathPresenter provides a web-based service to connect pathologists, radiologists, clinicians and life science researchers to share medical data and build tools for enhancing medical education, patient care and management. Current presentations, tumor boards, or transporting of medical images is cumbersome. The information gleaned from each patient and his/her journey through care deserves the highest caliber of investigation. Using PathPresenter will create a seamless environment for you to use, share and collaborate with fellow clinicians throughout the world to learn, teach, present, perform research, and practice better medicine. It can also be leveraged to connect industry to the global network of clinicians and researchers

Role : Project Manager Dec-2020- Current

- Financial management of all the project and portal
- Maintain director reporting and account managing the offshore and in-house team.
- meeting with clients' partners and specify the onboarding process.
- Establish solid controls around Data Quality, Data Security, SOP's at all levels of the Business Intelligence and Big Data hierarchy – from analytics detail; up through Executive Dashboards and KPI's. Maintain and advise best-practices on the flow of structured and unstructured content between disparate SAP systems.

Gopi Acharya
